We believe that choosing the right timber cladding should be straightforward. Cladding that looks right, performs well, and doesn't become a maintenance problem five years down the line.

Our cladding is selected from durable species that are proven to work in the British climate. Installed correctly, they will last for decades with very little upkeep.

Useful to Know

Profiles & Finishes

Available in sawn or smooth finishes across a range of profiles. Full technical details are available on our website.

Durability

All of species in our product range are durable. No extra chemicals are required.

Weathering

If left untreated, the boards will naturally weather to a silver-grey.

Coatings

To maintain original colour, a suitable external oil or coating can be used prior to installation or consider our black painted range.

Lengths

Cladding boards are supplied in random lengths. Jointed items supplied in 4.0mt with some shorter lengths down to 1.8mt.

Fixings

Use stainless steel nails or screws for all external cladding installations. We stock a wide range.

Quantities

Allow at least 10% extra for waste. Small additional quantities may incur a £60 +VAT set-up charge.

Samples

Species samples are available free of charge, subject to stock. Remember, timber is natural. Colour and grade will vary.
